

## Health & Safety

**⚠ WARNING** **HEALTH & SAFETY WARNINGS:** To reduce the risk of personal injury, discomfort or property damage, please ensure that all users of this accessory carefully read the warnings below.

### Before Using Your VR System

- It is important that you carefully read the Health and Safety Guide enclosed with your headset in addition to these warnings before using your VR system.
- Read and follow all setup and operating instructions provided with the headset.
- Visit the Oculus Safety Center at [oculus.com/safety-center](https://www.oculus.com/safety-center) for the latest versions of the warnings for your accessory and your headset, including warnings in different languages, and for more information on the safe use of your VR system.

- Install and use enclosed wrist straps or lanyards with your controllers to secure to your wrist when in use.
- This accessory is not a toy and should not be used by children under the age of 13.
- You should always use your VR system in a safe environment as described in the Health and Safety Guide provided with your headset. While using the headset with these controllers, you may extend your arms fully out to the side or over your head, so make sure those areas are clear of objects or potential hazards.
- The rings on your controllers extend away from your hands. Use caution when moving your hands and arms so you do not strike yourself with the controllers.
- Using the headset and these controllers may make your muscles, joints, neck, hand(s), or skin hurt. If any part of your body becomes tired or sore while using the headset or its components, or if you feel symptoms such as tingling, numbness, burning or stiffness, stop and rest for several

hours before using it again. If you continue to have any of the above symptoms or other discomfort during or after use, stop use and see a doctor.

- The controllers may contain magnets or components that emit radio waves, which could affect the operation of nearby electronics, including cardiac pacemakers, hearing aids and defibrillators. If you have a pacemaker or other implanted medical device, do not use the headset and controller without first consulting your doctor or the manufacturer of your medical device. Maintain a safe distance between the controller and your medical devices. Stop using the controller(s) if you observe a persistent interference with your medical device.
- Your controllers contain AA batteries.
  - **CHOKING HAZARD.** The controller is not a toy. It contains batteries, which are small parts. Keep away from children under 3.

- Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children until it can be repaired.
- Keep batteries in original package until ready to use. Properly dispose of used batteries promptly.
- Battery in the controller is user-replaceable
- Do not mix old and new batteries. Replace all batteries of a set at the same time.
- Do not disassemble, pierce, or attempt to modify batteries.
- Risk of fire. Batteries can explode or leak if installed backwards, disassembled, charged, crushed, mixed with used or other battery types, or exposed to fire or high temperature.
- Remove exhausted batteries from product promptly. Remove batteries before storage or extended periods of non-usage. Exhausted batteries may leak and damage

your controllers.

- Refer to **oculus.com/support** for proper maintenance, replacement, and disposal of batteries.
- Controller Care
  - Do not use your controller if any part is broken or damaged.
  - Do not attempt to repair any part of your controller yourself. Repairs should only be made by an Oculus authorized servicer.
  - To avoid damage to your controllers, do not expose them to moisture, high humidity, high concentrations of dust or airborne materials, temperatures outside their operating range or direct sunlight.
  - To avoid damage, keep your controllers away from pets.
